PROFILE

As a Frontend Developer, I possess a learning mindset and am passionate about creating engaging and intuitive user experiences. With a strong understanding of JavaScript and React, I pay close attention to details to ensure the best possible results. I take a keen interest in UX and thrive in a team environment, while also being comfortable working independently.

In addition, I have experience managing a small team of people, where I have honed my leadership and communication skills. I am dedicated to motivating my team to achieve their goals, while also ensuring a positive and collaborative work environment. Furthermore, I believe that a good sense of humor is essential in building strong relationships with colleagues and creating a productive and enjoyable workplace.
